You’ve probably heard the exciting news — Anderson University is building a new Student Center. Groundbreaking ceremonies were held on April 8, 2015, and construction is well underway. The G. Ross Anderson, Jr. Student Center will be completed by the fall of 2016.

This 86,000 sq.ft. state of the art facility will be the largest building on our campus and will feature a banquet hall, a new cafeteria, a fitness center, a 400-seat theater and other amenities like retail food kiosks for Chick-fil-A and Einstein’s Bagels.

Contributions from alumni and friends have helped propel Anderson University to top rankings among Regional Comprehensive Colleges and Universities. Today Anderson is recognized as one of the fastest growing private universities in the country. A new Student Center is critical for our continued progress and service.

During the construction phase, we will need to complete our capital funding for this project. With a campaign goal of $15.2 million, we’ve secured approximately $13.7 million in gifts and pledges. An additional $1.5 million is needed to reach our funding goal and claim a $500,000 challenge grant. The deadline to claim this challenge grant is July 1, 2016.

Your gift or pledge can make all the difference ... to current and future generations of AU students. This is the most expensive single capital project in our institution’s 104-year history. Broad support, your support, is needed for us to reach our funding goal and claim this challenge grant.

Please consider making your gift or pledge today by using the enclosed material. Your investment will make a significant difference in ensuring our continued success.

Respectfully,

Evans P. Whitaker
President
