

Bachelor of Business Administration with a Concentration in Healthcare Management (BBA/HCM)

Anderson University offers a concentration in Healthcare Management under its current Bachelor of Business Administration degree through its evening ACCEL program for adults. This program is designed for health facility employees or those who would like to pursue a career in health care management. Classes meet on Monday and Thursday evenings at 5:30 and 7:50 p.m., five eight-week terms per year with a potential to earn 30 semester hours per calendar year. Classes are also available online.

The curriculum contains the following:

- 42 semester hours of general education courses
- 39 semester hours from the core business curriculum, including accounting, economics, finance, information systems management, management, marketing
- 24 semester hours of health services management courses, including Introduction to Healthcare Management, Principles and Methods of Epidemiology, Strategic Management for Health Care Organizations, Health Economics and Policy, Ethical and Legal Issues in U.S. Health Care
- 15 semester hours of general electives

Courses can be transferred from an associate's degree program. General electives can include clinical specialty courses taken at the associate's degree level. Anderson University accepts a maximum of 64 semester hours transferred from an associate's degree program.

The Business Program at Anderson University is accredited with the Accreditation Council for Business Schools and Programs. The overall Healthcare Management program was designed to meet the guidelines established by the Association of University Programs in Health Administration.

Benefits of this program:

- The program offers the flexibility for continued employment while taking courses.
- This program can also be taken by individuals with associate's degrees in business and by those who may or may not be working in a health care setting, but wish to either advance within their health care organization or seek entry level management opportunities in health care.
- The program offers an optional internship experience.
- A critical element of the business core is the integration of Christian ethics throughout the curriculum.
- Degree completion provides an individual with more flexibility in terms of future career paths.
